## Career Objective

To use my technical skills to improve the organization. I also aim to work harder to reach our goals and achieve the best performance in the organization. I am keen to utilize my innovative abilities and skills to complete projects.

## Educational Qualification

<i>Course Name</i>	<i>School / College Name</i>	<i>University / Board</i>	<i>Year Of Passing</i>	<i>Percentage / CGPA</i>
<b>B. Tech</b> (Electronics and Telecommunications Engineering)	Shri Guru Gobind Singhji Institute of Engineering and Technology, Nanded	Swami Ramanand Tirth Marathwada University, Nanded	Pursuing	
<b>Semesters</b>				
<b>VII</b>	SGGSIE&T, Nanded	SRTMU	Pursuing	-
<b>VI</b>	SGGSIE&T, Nanded	SRTMU	2022-23	7.90
<b>V</b>	SGGSIE&T, Nanded	SRTMU	2022-23	7.52
<b>IV</b>	SGGSIE&T, Nanded	SRTMU	2021-22	7.12
<b>III</b>	SGGSIE&T, Nanded	SRTMU	2021-22	6.90
<b>Diploma</b> (Mechanical Engineering)	Government Polytechnic, Pune	MSBTE	2018-21	92.20
<b>SSC</b>	Gurudev Vidya Mandir, Mukhed	Maharashtra State Board	2017-18	96.00

## Technical Qualification

<i>Course Name</i>	<i>Institute</i>	<i>Duration</i>	<i>Year</i>
Python	Udemy	3-Months	<b>2023</b>
Machine Learning	SGGSIE&T, Nanded	4-Months	<b>2023</b>
VLSI System On Chip Design	Maven Silicon	15-Days	<b>2023</b>

## Project Undertaken

<i>Project Title</i>	<i>Form of Project</i>	<i>Duration</i>	<i>Year</i>
<b><u>Data Pre-processing Web App</u></b> In this project, Data preprocessing, a component of data preparation, describes any type of processing performed on raw data to prepare it for another data processing procedure. Data preprocessing transforms the data into a format that is more easily and effectively. Data preprocessing stages: Data cleaning, Data Reduction, Data Integrations, Data Transformation.	Machine-learning (Python)	January – April (4 months)	<b>2023</b>
<b><u>Piston Pump Fertilizer</u></b> In this group project, we designed and developed The piston pump fertilizer a proven the time of spraying is faster and it more efficient compare to other normal type hand sprayer. To give farmers more ergonomic working environment while spraying because they don't need to lift or carry the poison tank but only push and pull the Piston Pump.	Hardware (Mechanical)	March – June (4 months)	<b>2021</b>

## ***Work Experience***

---

- **Job Title:** Diploma Engineer Trainee
- **Company:** L&T Construction
- **Location:** Mumbai
- **Duration:** October-December
- **Year:** 2021
- **Overview:** I learnt about various construction operations and processes which are built and constructed in various sectors such as Urban, Commercial, Residential and Industries.

## ***Technical Knowledge***

---

- Concept of **DIGITAL VLSI DESIGN** And **MICROELECTRONICS**
- Programming languages: **PYTHON, C++, HTML, CSS**
- Sound Knowledge of **MATLAB**
- Basics of **Data Structure**

## ***Achievements***

---

- Got 2<sup>nd</sup> rank from school in SSC in 2018
- I have completed MS-CIT course with 85%
- Class representative (CR) in three years of Diploma from 2018-2021
- I was a magazine general secretary of government polytechnic Pune
- President of MESA (Mechanical Engineering Student Association) GPP

## ***Hobbies***

---

- Playing Cricket
- Reading Books
- Reading Newspaper
- Explore New Things

## ***Extra-Curricular Activities***

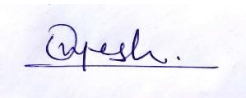

---

- Volunteering
- Social Work
- Seminar on: **INTERNET OF THINGS**

## ***Personal Details***

---

- ❖ Date of Birth: **04 February 2002**
- ❖ Father Name: **Mr. Shivraj Havarage**
- ❖ Address: **House No.27 At Post Near Forest Office, Mukhed Dist.Nanded-431715**
- ❖ LinkedIn: <https://www.linkedin.com/in/umesh-havarage-424077230>
